Allowable Subject Matter

1. Claims 1, 3-6, and 9-11 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a method and apparatus for performing lawful interception of a first multimedia call between first and second terminals, comprising, detecting the initiation of the first multimedia call, forwarding parameters defining at least one forward channel and reverse channel of the first multimedia call, emulating a multimedia terminal at said gateway and setting up a second multimedia call between the emulated terminal and a monitoring terminal, following the initiation of the first multimedia call, intercepting forward or reverse channel data at said monitoring equipment, wherein the second multimedia call includes a first gateway call and a second gateway call, and the step of transmitting the data includes forwarding channel data from the intercepted call on a forward channel of the first gateway call and reverse channel data on a forward channel of the second gateway call, as substantially described in independent claims 1 and 11. These limitations, in combination with the remaining limitations of claims 1 and 11, are not taught nor suggested by the prior art of record. Dependent claims 3-6 and 9-10 depend from claim 1 and are therefore allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL T. THIER whose telephone number is (571) 272-2832. The examiner can normally be reached on Monday thru Friday 7:30-4:30.
